

# HWeb Mail

The Hudson Group's mission is to bring the latest technologies to our clients and to make it **easy** to integrate and manage these new systems. HWeb Mail, a **comprehensive, low-cost** and extremely effective email system is one such technology offered by Hudson. If you are like most, you probably have an (old) email account with your Internet Service Provider, thinking that you probably had little choice. You can decide to use alternate email service providers (some are free and some are subscription-based) and can take advantage of **features and functionality** you may not have known existed. Making a decision to go with HWeb Mail brings you complete spam and virus filtering, improved server and network reliability and the ability to manage or sync your mail from your desktop, laptop, BlackBerry, iPhone or

most any web-enabled device. You can keep your existing software, so whether you prefer Outlook, Thunderbird, Eudora, Mac Mail or some other email application, you can continue to use it, or even several, to view or manage your mail.

## HWeb Mail Provides:

- ***Up to 50 Mailboxes***
- ***3 GB or 5 GB data storage capacity***
- ***Email aliases***
- ***Calendar / Resource scheduling***
- ***Contact management***
- ***Task list - Notes***
- ***Anti-Spam & Anti-Virus filtering***
- ***AutoRespond-Forward***
- ***Whitelist & Blacklist***

Send **large attachments**? HWeb Mail will handle attached files up to 50MB in size and also supports unlimited domains allowing you to bring other email accounts over to HWeb Mail and consolidate multiple addresses into one, easy to manage central location. Because Hudson is **obsessed with security** and the backing up of your data; we take the same approach with your HWeb Mail account. If a problem were ever to occur, your connection is transferred seamlessly to a backup server and **no downtime** or loss will occur. A full monthly backup with weekly incremental backups are also stored, making data retrieval quick and easy. **Support?** As with all other Hudson applications, your HWeb Mail account is supported 24 hours per day, by a knowledgeable and professional Technical Support staff. If you are ready to make the move to a simpler, easier, complete and secure email solution, consider HWeb Mail, and then contact Hudson today!
